ABOUT THE SCHOOL

The department provides state-of-the-art education to students seeking to become pharmacists, researchers, and those seeking positions in academia, the pharmaceutical industry, governmental and non-governmental agencies, or other health care systems. Total 17 faculty members are there & 6 of them are having doctoral degree in the School of Pharmacy.

Pharmacy is a rewarding, dynamic profession, one that beckons outstanding students to explore its many opportunities in the changing health care environment. The course has been designed to cater to the requirements of a large horizon of healthcare needs for Pharmaceutical and Formulation Industry, Clinical Pharmacy, Pharmacovigilance, Research and; Development of drugs including drugs of natural origin, Health Regulatory system and Academia. There will be focus on enabling students with the ability to design formulation and synthetic process as per needs and specifications in the Pharmaceutical industry. In addition, the program also concentrates on preparing the students and training them for industry-ready holistic Pharmaceutical care in the practice setting. The industrial visits and practical sessions held on regular basis ensure the students to perfect exposure to the real-world situations while learning.
