ABOUT THE DEPARTMENT

It is an acknowledged fact that a knowledge of at least one international language is today becoming important in ways never before realized. Globalization, 'glocalization' and the opening up of national borders to world-wide trade means that more and more corporate houses and business-employers are looking to hire people with foreign language skills. However, even as more and more people need to learn a foreign language – either for employment requirements or even for personal reasons – facilities for truly professional training in languages continue to be either inaccessible or inadequate.

It is with a vision of fulfilling this social and economic need that **Sister Nivedita University** has started its own **School of Languages**. This University which is part of the renowned educational conglomerate of **Techno India Group**, is offering courses in **CHINESE, JAPANESE, SPANISH, GERMAN, FRENCH**, and (for the first time in an Indian University) in **ESPERANTO** (the 'international auxiliary language' created to enable people from different language backgrounds to communicate).

What is special about the language courses offered by **Sister Nivedita University** is the **CONTENT** of the instruction, the **QUALITY** of the teachers, the **MODE** of instruction, and the **INFRASTRUCTURE** available. The teaching of each course will cover the provision of study materials, the employment of audio-visual aids for easier and faster language learning, and individual attention provided by the teachers.
